🪪 PROFILE

Efficient computer engineering major currently attending Cairo university, aiming to leverage proven communication, problem-solving, and language skills to successfully fill the internship at your company, frequently praised as focused by my peers, I can be relied upon to help your company achieve its goals

💼 PROFESSIONAL EXPERIENCE

SilverKey Technologies, Full Stack developer intern
June 2023 – present | Giza, Egypt
Trained in the core technologies of ASP.NET Core including Minimal API ,Web fundamentals ,Blazor WASM ,Developing a software for a Menus Website C#

Eva Pharma, IOS developer "Intern"
July 2022 – September 2022 | Haram-Giza
Developed a meal system app, for EVA company's "people's app" as a feature in it , swiftlanguage and UIKIT by Alamo fire , user defaults and kingfisher as the only IOS developer in the team

Raya Holding, Software developer "intern"
June 2022 – July 2022 | 6 October-Giza
Developed a program for saving cards info and the transactions done by them, the ATM self-services department / software RAYA HOLDING , C++

Ain Shams students association, Arduino Workshop
August 2021 | Giza

🎓 EDUCATION

Bachelor of computer engineering,
Cairo university (3.4 GPA)
2019 – 2024 | Egypt

Thanawaya amma, English,
Saint Mary language school (96%)
2019 | helwan, cairo

♟ EXTRA-CURRICULAR ACTIVITIES

ECPC 2023
August 2023
Ranked 20 out of 200+ teams in the Egyptian Collegiate Programming Contest for 2023

🧠 SKILLS

Programming Languages :
C++, C, C#, Python, Java, MATLAB, JavaScript, Assembly, HTML, CSS

Frameworks and technologies :
Node.js, Express framework, ASP.NET Core, Swift UI, OpenGL, Git version control

Databases :
SQL Server, NoSQL DBs (MongoDB)

Soft Skills :
Strong Communication skills, technical writing , presentation skills , works in teams , works under pressure

🗂 PROJECTS

Eventbrite clone backend development,
Node.js , express framework , mongoDB

Search engine, Java(web crawler,threading)

Game engine, C++,openGL

Logic designing simulator, C++, OOP

Shuttles management system, C++,Data structures

Network simulation system, omnetpp

Designing and implementation of an E-commerce app database management system,
C# and SQL server

Scheduling algorithms simulation,
Linux basics C language

Micro- processing emulator game,
Assembly language

From A to Z a robot that cooked 5 meals, Arduino

AES encryption and decryption project 128,192,256,
VHDL
